

## **GUIDELINES FOR SUBMITTING INYO COUNTY SIGHTINGS TO NORTH AMERICAN BIRDS [effective 2017]**

[http://esaudubon.org/NAB\\_inyo.php](http://esaudubon.org/NAB_inyo.php)

The attached list of Inyo County Birds, in the new 2017 taxonomic order, is being posted in an effort to inform observers of the species found in Inyo County. Those casual or rare enough to require a description are underlined and those on the California Bird Records Committee Review List are **underlined and bold**. Those species underlined fall into the following categories; vagrants, casual species recorded fewer than seven years per decade for each season(s) in which they occur, very rare species that are not recorded every year but are presumed to occur here annually, rare species that have similar look-alike species that are more expected (e.g., Greater Scaup), species experiencing a decline in numbers in the county (e.g., Cassin's Kingbird), species that have a history of being misidentified (e.g., Gray Vireo), hybrids, and rare species present in very small numbers.

Few species require lengthy descriptions, but the more rare the species or the more unexpected the species due to date, location, or number seen, the more detailed and convincing the description needs to be. When species not underlined are found out of season and/or out of known geographic distribution, they do require a description. Jon L. Dunn wrote up a Yellow-rumped (Audubon's) Warbler because he found it at Furnace Creek Ranch in Death Valley in late June. Steve N.G. Howell wrote a short description and a sketch of a Barn Swallow because he found it in the Owens Valley in late December. Both observers did so without being asked. Why? Because they recognized how unexpected the event was. If they can write descriptions of common species seen at uncommon times or in unexpected locations so can the rest of us. If we hear of unusual sightings, we will send requests for more information on species not underlined that are reported away from known locations, outside known temporal limits, or in numbers that are near or exceed the highest count.

Minimally, we need date, location, distance between bird and birder, amount of time viewing the bird(s), whether through binoculars or a telescope, and a description of the relevant aspects of plumage, structure, vocalizations and behavior. Often it takes two to three sentences for a totally convincing write-up; occasionally, as many paragraphs might be necessary. And remember that a picture is worth a thousand words!

Numerous sightings of Inyo County birds (up to 30,000 sightings in one season!), posted on the Internet without any descriptions, are not included in the Inyo County Seasonal Report to North American Birds or the county database. Eastern Sierra Birds posts that contained adequate descriptions and/or photographs are included in both the report and the database. If you enter your sightings into eBird and want them submitted for publication in North American Birds, we request that you send us a copy of your documentation, written and/or photographic or your eBird Submission number, so that we can add your records to the county archives.

The seasons are Spring – 1 March to 31 May, Summer – 1 June to 31 July, Fall – 1 August to 30 November, Winter – 1 December to 28 February. We must have reports by the tenth day following the end of each season and the species need to be in taxonomic order to facilitate collating all the reports. Please send them to [tjheindel@gmail.com](mailto:tjheindel@gmail.com).

We are providing this information so observers know what is expected in order to turn a personal sighting into a county record that will stand the test of time. We cannot respond to observer's requests that we let them know which of their sightings need descriptions since we often have over fifty observers submitting reports. We ask that you send us all you have when you submit your sightings!

Thanks to all who have met and exceeded our requests in archiving a reliable database for Inyo County.

## Inyo County 2017 taxonomic order

<b><u>FULVOUS WHISTLING-DUCK</u></b>	<b>CBRC review species</b>
<u>SNOW GOOSE (BLUE PHASE)</u>	
<u>SNOW GOOSE (WHITE PHASE)</u>

<u>AMERICAN GOLDEN-PLOVER</u>	casual in county
<u>PACIFIC GOLDEN-PLOVER</u>	casual in county
SNOWY PLOVER	casual to rare away from Owens Lake
SEMIPALMATED PLOVER	
KILLDEER	
MOUNTAIN PLOVER	casual in county
<b><u>UPLAND SANDPIPER</u></b>	<b>CBRC review species</b>
<u>WHIMBREL</u>	uncommon at Owens Lake but casual in rest of the county
LONG-BILLED CURLEW	casual in winter away from Owens Lake
MARbled GODWIT	rare to casual in county except in Aug
<u>RUDDY TURNSTONE</u>	casual in county
<u>BLACK TURNSTONE</u>	casual in county
<u>RED KNOT</u>	casual in county
RUFF	casual in county
<u>STILT SANDPIPER</u>	casual in county

<u>SANDERLING</u>	rare in fall
DUNLIN	
<u>BAIRD'S SANDPIPER</u>	
<b><u>LITTLE STINT</u></b>	<b>CBRC review species</b>
LEAST SANDPIPER	
<u>BUFF-BREASTED SANDPIPER</u>	
<u>PECTORAL SANDPIPER</u>	
<u>SEMIPALMATED SANDPIPER</u>	rare in fall
WESTERN SANDPIPER	
<u>SHORT-BILLED DOWITCHER</u>	
<u>LONG-BILLED DOWITCHER</u>	
WILSON'S SNIPE	
SPOTTED SANDPIPER	
SOLITARY SANDPIPER	
LESSER YELLOWLEGS	
WILLET	
GREATER YELLOWLEGS	rare in May & Jun
WILSON'S PHALAROPE	
RED-NECKED PHALAROPE	
RED PHALAROPE	casual in county
<u>PARASITIC JAEGER</u>	casual in county
<u>LONG-TAILED JAEGER</u>	casual in county
<u>SABINE'S GULL</u>	rare in fall
BONAPARTE'S GULL	few reports this year
FRANKLIN'S GULL	casual in fall
<u>HEERMANN'S GULL</u>	casual in fall
<u>MEW GULL</u>	casual in county
RING-BILLED GULL	
WESTERN GULL	casual in county
CALIFORNIA GULL	
<u>HERRING GULL</u>	rare in county
ICELAND GULL	casual in county
<u>LESSER BLACK-BACKED GULL</u>	<b>CBRC review species</b>
<u>GLAUCOUS-WINGED GULL</u>	casual in county
<u>GLAUCOUS GULL</u>	casual in county
LEAST TERN	casual in county
CASPIAN TERN	rare in summer
BLACK TERN	
<u>COMMON TERN</u>	
ARCTIC TERN	casual in county
FORSTER'S TERN	casual in summer
RED-THROATED LOON	rare in winter
PACIFIC LOON	rare in county
COMMON LOON	few reports this year
<u>WOOD STORK</u>	
<b><u>MAGNIFICENT FRIGATEBIRD</u></b>	<b>CBRC review species</b>
DOUBLE-CRESTED CORMORANT	
AMERICAN WHITE PELICAN	
<u>BROWN PELICAN</u>	
AMERICAN BITTERN	
LEAST BITTERN	
GREAT BLUE HERON	
GREAT EGRET	
SNOWY EGRET	
<u>LITTLE BLUE HERON</u>	
<u>REDDISH EGRET</u>	accidental
CATTLE EGRET	
GREEN HERON	rare in summer and winter
BLACK-CROWNED NIGHT-HERON	
<b><u>GLOSSY IBIS</u></b>	<b>CBRC review species</b>
WHITE-FACED IBIS	
<b><u>BLACK VULTURE</u></b>	<b>CBRC review species</b>

TURKEY VULTURE	
CALIFORNIA CONDOR	casual in county
OSPREY	casual in fall
<u>WHITE-TAILED KITE</u>	casual in county
<b>MISSISSIPPI KITE</b>	<b>CBRC review species</b>
<u>BALD EAGLE</u>	very uncommon in the So. Cal region
<u>NORTHERN HARRIER</u>	
<u>SHARP-SHINNED HAWK</u>	
COOPER'S HAWK	
NORTHERN GOSHAWK	rare in county
RED-SHOULDERED HAWK	
<u>BROAD-WINGED HAWK</u>	casual in spring and fall
SWAINSON'S HAWK	
<u>ZONE-TAILED HAWK</u>	casual in spring and fall
RED-TAILED HAWK	
<u>ROUGH-LEGGED HAWK</u>	
FERRUGINOUS HAWK	
GOLDEN EAGLE	
BARN OWL	
<u>FLAMMULATED OWL</u>	rare to casual in county
<u>WESTERN SCREECH-OWL</u>	
GREAT HORNED OWL	
<u>NORTHERN PYGMY-OWL</u>	
BURROWING OWL	rare in winter
BARRED OWL	
LONG-EARED OWL	
<u>SHORT-EARED OWL</u>	casual in county
NORTHERN SAW-WHET	
BELTED KINGFISHER	
<u>LEWIS'S WOODPECKER</u>	irruptive species, very uncommon in the valley
<u>ACORN WOODPECKER</u>	casual to rare in county
<u>WILLIAMSON'S SAPSUCKER</u>	
<u>YELLOW-BELLIED SAPSUCKER</u>	
RED-NAPED SAPSUCKER	casual in summer
RED-BREASTED SAPSUCKER	
LADDER-BACKED WOODPECKER	
NUTTALL'S WOODPECKER	
DOWNY WOODPECKER	
HAIRY WOODPECKER	
<u>WHITE-HEADED WOODPECKER</u>	rarely reported
NORTHERN (YELLOW-SHAFTED) FLICKER	
NORTHERN (RED-SHAFTED) FLICKER	
<b>CRESTED CARACARA</b>	<b>CBRC review species</b>
AMERICAN KESTREL	
<u>MERLIN</u>	very uncommon in fall
<b>GYRFALCON</b>	<b>CBRC review species</b>
<u>PEREGRINE FALCON</u>	rare in county but uncommon in fall at Owens Lake
PRAIRIE FALCON	
OLIVE-SIDED FLYCATCHER	
WESTERN WOOD-PEWEE	
<b>EASTERN WOOD-PEWEE</b>	<b>CBRC review species</b>
WILLOW FLYCATCHER	
<u>LEAST FLYCATCHER</u>	casual in county
HAMMOND'S FLYCATCHER	
GRAY FLYCATCHER	
DUSKY FLYCATCHER	
PACIFIC-SLOPE FLYCATCHER	
<u>CORDILLERAN FLYCATCHER</u>	
WESTERN FLYCATCHER	
BLACK PHOEBE	
<u>EASTERN PHOEBE</u>	casual in county
SAY'S PHOEBE	

<u>VERMILION FLYCATCHER</u>	
<b><u>DUSKY-CAPPED FLYCATCHER</u></b>	<b>CBRC review species</b>
<u>ASH-THROATED FLYCATCHER</u>	
<u>GREAT CRESTED FLYCATCHER</u>	
<u>BROWN-CRESTED FLYCATCHER</u>	
<u>TROPICAL KINGBIRD</u>	casual in county
<u>CASSIN'S KINGBIRD</u>	
<b><u>THICK-BILLED KINGBIRD</u></b>	<b>CBRC review species</b>
<u>WESTERN KINGBIRD</u>	
<u>EASTERN KINGBIRD</u>	rare to casual in county
<u>SCISSOR-TAILED FLYCATCHER</u>	casual in county
<u>LOGGERHEAD SHRIKE</u>	
<u>NORTHERN SHRIKE</u>	rare in county
<b><u>WHITE-EYED VIREO</u></b>	<b>CBRC review species</b>
<u>BELL'S VIREO</u>	
<u>GRAY VIREO</u>	rare to uncommon in county
<u>HUTTON'S VIREO</u>	casual in county
<u>YELLOW-THROATED VIREO</u>	
<u>CASSIN'S VIREO</u>	
<b><u>BLUE-HEADED VIREO</u></b>	<b>CBRC review species</b>
<u>PLUMBEOUS VIREO</u>	first wintering record for Inyo County
<u>PHILADELPHIA VIREO</u>	casual in county
<u>WARBLING VIREO</u>	
<u>RED-EYED VIREO</u>	rare to casual in county

Descriptions are details imbedded in an observer's report and are not forwarded with the county report. Descriptions are noted behind the observer's initials and can be sent on request.

Documentation is a separate account included with the observer's report. If it is a CBRC review species it is forwarded electronically, concurrent with the mailing of the report, if not earlier. Documentation is required for many species in Inyo County that are more commonly found elsewhere in the southern CA region. If documentation does not accompany a bird seen in Inyo County that is rare or more unusual, it will not be considered a county record or submitted for publication. Documentation is noted behind the observer's initials and can be sent on request if not submitted with this report.

Numerous sightings of Inyo birds were posted on the Internet without any description and are not included in the report or the county database. Other posts contained adequate descriptions and/or photographs and are included in this report and in the county database. Guidelines and Taxon List for reporting Inyo County Birds is available at < [esaudubon.org/NAB\\_inyo.htm](http://esaudubon.org/NAB_inyo.htm) >.
